PREAMBLE

The agencies signatory to this agreement, having assumed responsibility within the general area of Santa Cruz County for responding to emergency incidents involving hazardous materials, and, further, having determined that the most efficient and cost effective method for such response is to align themselves into a multi-agency team, do agree to the terms of this memorandum of understanding.

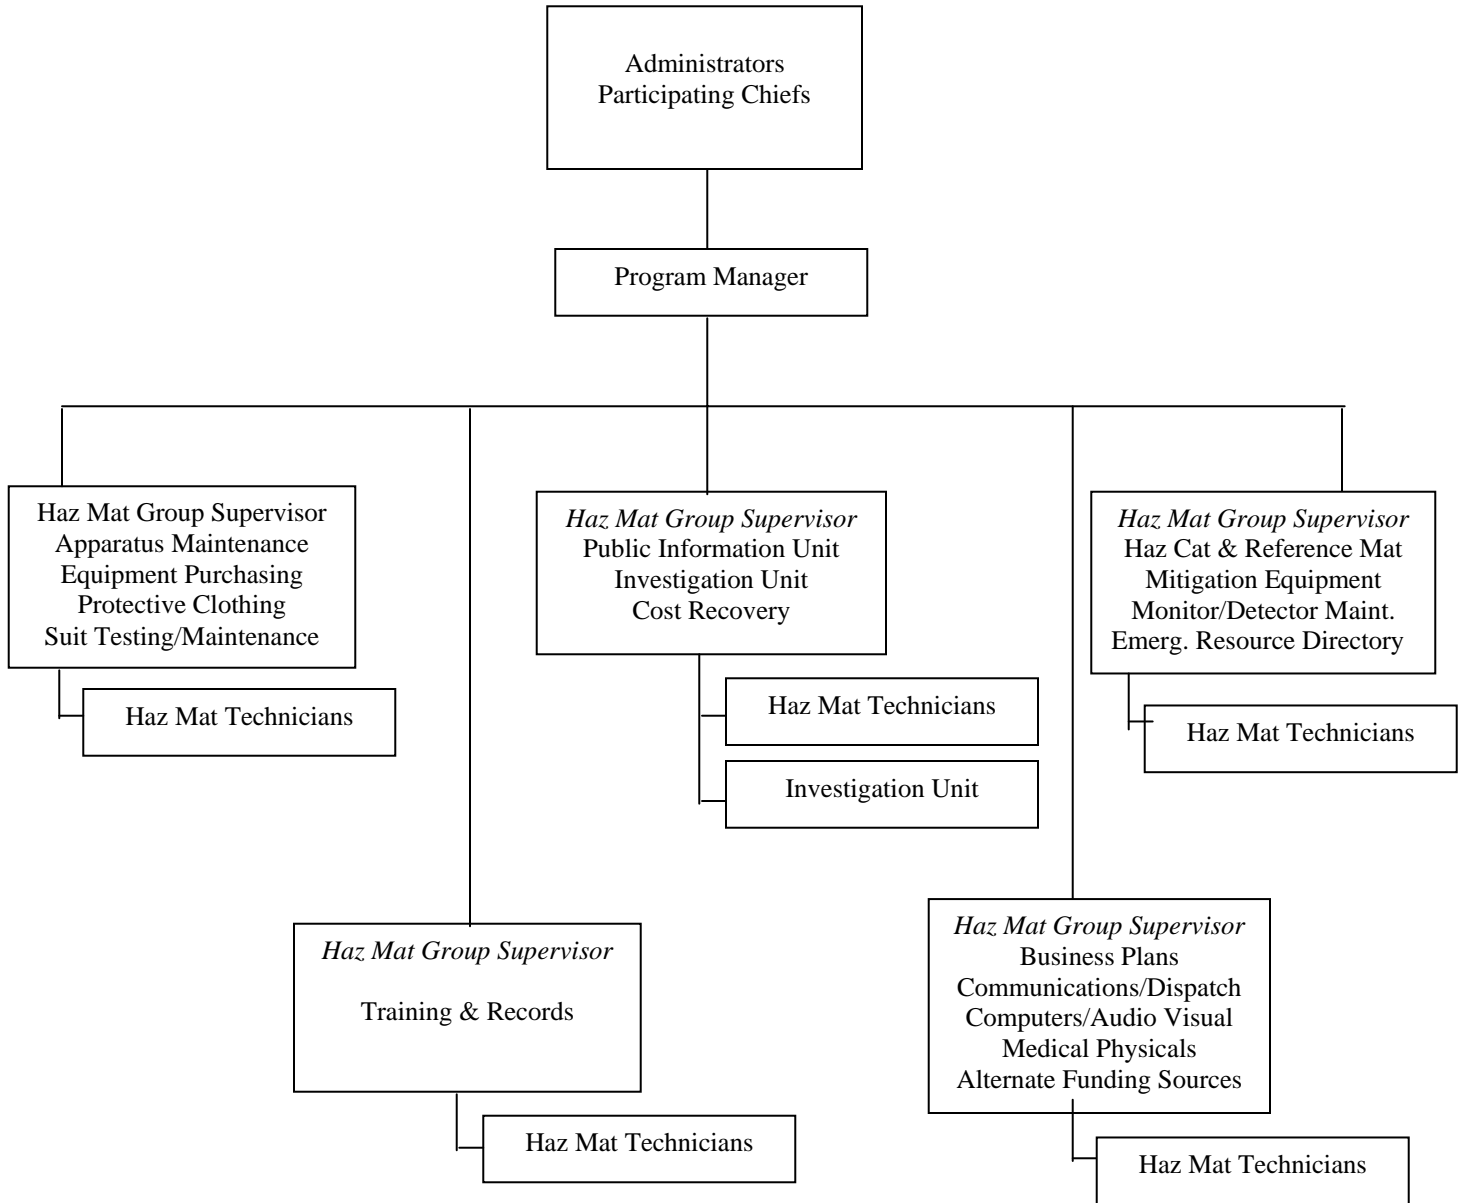

By the commitment of resources, the agencies hereby establish the Santa Cruz Hazardous Materials Interagency Team (SCHMIT), which will serve to provide the proper capabilities necessary for response to emergency incidents involving hazardous materials to the best of the participating agencies' collective abilities.

This memorandum of understanding shall become an attachment to the Santa Cruz County Hazardous Materials Area Plan and the Area Wide Hazardous Materials Contingency Plan, as per the California Code of Regulations. As such, it is important to make the distinction that this agreement serves as an operational plan for the participating agencies relative to resource commitment, training requirements, finance and administration and that it does not replace the Area Plan, which is the responsibility of Santa Cruz County as the Certified Unified Program Agency pursuant to California law.

The scope of this agreement is for provision of emergency response service to hazardous material releases, only. The responsibility for clean up and mitigation is that of Santa Cruz County.

ARTICLE 1: TEAM STRUCTURE

ORGANIZATIONAL CHART

SECTION 1.0 ADMINISTRATORS

The Program Administrators shall be composed of the department chief of each participating agency. The Administrators shall set the Team's direction through enactment of policy and guidelines to assure continuity and a coordinated interaction of all participating agencies. This group shall commit reasonable resources under their individual control to adequately staff, train, and maintain equipment and personnel to mitigate emergency incidents involving Hazardous Materials. The Administrators shall also assure that each individual participating agency's policies and procedures are not

compromised and, further, that the direction of each participating agency's governing jurisdiction is not eroded.

The Program Administrators will mutually agree on the composition of the Team personnel who will perform in the Program Manager and the Haz Mat Group Supervisor roles as defined in this agreement. Primary direction to Team operations will funnel through the Program Manager to the Haz Mat Group Supervisors.

An annual review of Team cost recovery efforts shall be conducted by the Administrators to recap any successful reimbursements and to assure that distribution has been made in the appropriate manner to the participating agencies.

The Administrators shall meet as often as necessary to assure consistent Team direction as part of the Santa Cruz County Fire Chiefs Association but no less than twice a year. The Administrators shall require, through the Program Manager, the Haz Mat Group Supervisors to present a comprehensive Annual Team Plan which shall include funding requirements, funding sources, training need projections, equipment acquisition plans as well as any significant projections which could impact Team functions in future years.

SECTION 1.1 PROGRAM MANAGER

The Administrators agree to appoint the Scotts Valley Fire Protection District as the Program Manager. This agency shall act to assure that the policy direction as delineated by the Administrators is carried forward by the entire Team to satisfactorily meet the goals and objectives.

The Scotts Valley Fire Protection District shall also apprise the Administrators of those changes in law, regulations, training requirements or Team needs on a requisite basis to assure consistent Team functions. The Scotts Valley Fire Protection District will be responsible to oversee all Team sub-role functions through the Haz Mat Group Supervisors. Operational issues of a regional nature will be pursued by the Scotts Valley Fire Protection District on behalf of and at the direction of the Administrators.

The requests to expend funds budgeted for operations will be routed through the Scotts Valley Fire Protection District.

The development of reimbursement billings for Team responses shall be prepared by the Team supervisor and forwarded to the program manager. Once completed, the program manager will forward the cost recovery package to Santa Cruz County Environmental Health for processing. It will be the responsibility of Santa Cruz County Environmental Health to have properly trained investigators of hazardous materials incidents assigned to investigation of incidents requiring Team response and to conduct follow up cost recovery. The scope of Team operations for the emergency response only.

SECTION 1.2 HAZ MAT GROUP SUPERVISORS

The Administrators shall consensually agree to the make up of the Haz Mat Group Supervisors. The personnel of this group will assume the delegation of the first level supervisory role for Team operations and will act as Team Leader during incident activities. All members of the Haz Mat Group Supervisors shall also be trained to perform as Haz Mat Technicians per the training requirements contained elsewhere in this agreement. This will allow the most flexibility in the use of the personnel assigned to

the SCHMIT. To address the need at the scene of emergency incidents, all Group Supervisors shall also be qualified as Safety Officers-Haz Mat.

Each incident will have only one person designated as Haz Mat Group Supervisor, who will operate within normal Incident Command System protocols. Other personnel from the cadre of Haz Mat Group Supervisors who are not performing as the Haz Mat Group Supervisor at the scene of an incident are to be assigned duties commensurate with their knowledge and experience. It will not always be possible to have a Haz Mat Group Supervisor from the responsible jurisdiction in charge of Team activities at the scene of an emergency incident for a variety of reasons. Therefore, the participants in the Haz Mat Group Supervisors cadre shall all be qualified to assume the role of Haz Mat Group Supervisor regardless of the incident's jurisdiction.

Haz Mat Group Supervisor members assume an important responsibility for their respective agency in that communication to agency administrators concerning daily Team activities will be borne by the Haz Mat Group Supervisors. The Administrators shall set yearly Team direction but will also expect updating of their respective agency's participation somewhat more often. This agency briefing will be through and by the agency's member (s) in the Haz Mat Group Supervisors.

Individual members of the Haz Mat Group Supervisors shall coordinate activities of designated Haz Mat Specialists and Support personnel in non-emergency sub roles. These sub-roles shall be in addition to each Team Member's primary incident responsibilities and will be important to the orderly growth and maintenance of the overall Team. These sub-roles are further defined in Article 4 of this agreement.

SECTION 1.3 HAZ MAT TECHNICIANS

The Technicians shall be employees of the participating agencies who have come under the scrutiny of the selection process contained in Article 2 of this agreement and have met the training requirements of their classification unless trained to a higher level. Due to the major commitment of time and money which an agency invests in each Technician, it will be incumbent upon the agencies to have a dedication from each individual in this classification. In addition to the primary roles in emergency responses, each Technician, will have a sub-role responsibility as defined in Article 4 of this agreement to assure the maintenance and growth of the capabilities of the SCHMIT. The assignments of sub-roles shall be by the Haz Mat Group Supervisors and shall be delegated by fields which can be of interest to the Technicians.

SECTION 1.4 HAZ MAT SUPPORT PERSONNEL

Support personnel are Engine Company personnel trained to the Haz Mat First Responder Operational.

SECTION 1.5 HAZ MAT SAFETY OFFICER

The Safety Officers shall be Haz Mat Group Supervisors of the participating agencies who have come under the scrutiny of the selection process contained in Article 2 of this agreement and have met the training requirements of their classification as well as Haz Mat Safety Officer.

SECTION 1.6 HAZ MAT PERSONNEL (NON-SCHMIT)

There are personnel from the participating agencies as well as other State, County, and Local level agencies who, by the nature of their work and by their legislated charges, would be instrumental to the successful mitigation of an emergency incident involving Hazardous Materials. Some of the most instrumental responders are delineated below. It should be noted that these personnel may or may not be standing members however, when a member is operating as one of the following, he/she will NOT be performing in his/her role but, rather as a First Responder or On-Scene Manager.

Section 1.6.1 Haz Mat First Responders/Operational

By regulations, Haz Mat First Responders/operational are normally employees of emergency response agencies who have been trained in the fields of awareness and incident classification. Preliminary incident assessment will normally be performed by these individuals. In those cases of minor hazardous material contamination, it is entirely probable that these persons will possess the proper knowledge to mitigate the situation without activation of the Team. These personnel may also be available to support SCHMIT operations.

Section 1.6.2 Haz Mat On-Scene Managers

While not necessarily a member in standing, a Haz Mat On-Scene Manager is instrumental to the proper and efficient mitigation of emergency incidents involving Hazardous Materials. All agencies with legislated scene management responsibilities will train personnel per regulation of the State of California to perform as Haz Mat On-Scene Managers and thus, manage the efforts of the SCHMIT at the scene of incidents, through the Haz Mat Group Supervisor. Quarterly scenarios will be structured to involve and exercise the skills of Haz Mat On-Scene Managers. Critiques shall also involve the On-Scene Managers who performed as such on the incident being critiqued.

SECTION 1.7 LOCAL RESPONSES

Local responses will be within those jurisdictions of Santa Cruz County including the Cities of Capitola, Santa Cruz, Scotts Valley, UCSC, and State Parks. The guidelines for these responses will be established by the individual jurisdictions and the responses shall follow the procedures contained within the Hazardous Materials Area Plan for Santa Cruz County.

Local responses at fixed facilities should be coordinated with the Emergency Response Team of the company, if applicable.

SECTION 1.8 REGIONAL RESPONSES

The Administrators will, when necessary, direct the Program Manager to conduct discussions with pertinent agencies and jurisdictions for the purpose of providing response on a regional basis by the Team. Such discussions and subsequent agreements and/or responses shall be governed by the guidelines contained herein.

Section 1.8.1 Regional Response DEFINED

For the purposes of this Memorandum of Understanding, the definition of “regional response” shall be: A response by the personnel and/or equipment committed to the make-up of the SCHMIT into those counties which are contiguous to the boundaries of Santa Cruz County.

Section 1.8.2 Regional Mutual Aid DEFINED

The ability to respond on a Mutual Aid basis to requests from recognized and organized Level A Haz Mat Teams which boarder the region as defined above can be deemed to be a benefit to the agencies. Such Mutual Aid responses will require an inter-team agreement to be signed by the Administrators. Any such agreement shall address in detail the areas of liability and reimbursement.

Section 1.8.3 Other Requests for Response

Additional requests through the established procedures of the State of California Office of Emergency Services for response to jurisdictions with emergencies may be authorized by the Administrators on a case-by-case basis. Any participating agency which assigns their personnel to these types of requests must participate in the approval to commit resources.

Section 1.8.4 Initial Regional Response Resource Commitment

Unless explicit intelligence is known prior to dispatch to a response outside of Santa Cruz County but within the Region, the following will be the standard commitment of resources based on availability at the time of request:

1. One (1) Haz Mat Group Supervisor
2. Four (4) Haz Mat Technicians
3. One (1) Haz Mat Safety Officer
4. One (1) Agency Representative, Chief Officer (W/Command Vehicle)
5. One (1) Haz Mat Vehicle

SECTION 1.9 ANNUAL OPERATIONAL PLAN

There shall be an annual operating plan developed by the Haz Mat Group Supervisors and presented to the Administrators. This plan shall include but not be limited to Team policy issues, staffing requirements, training needs for the next year, equipment needs, status of the outside funding efforts, a prognosis for Team involvement for the upcoming months as well as any other items of interest concerning Haz Mat or activities. There shall be a portion of the Annual Plan which details the training commitment for Team members for the upcoming year. The date for this presentation should be coordinated by the Program Manager, Scotts Valley Fire Protection District, to assure that all participating agencies have the prepared information in a timely manner for the budgeting process of each individual agency.

An annual summary from the Program Manager of the previous year's activities will be submitted to the Administrators. The summary will include response experience, training conducted and other activities.

SECTION 1.10 AGENCIES' COORDINATION EFFORTS

One of the overriding reasons for the establishment of a multi-agency response capability is to realize the value of each of the agency's efforts in securing sufficient equipment, personnel and training to adequately respond to Haz Mat emergencies. The participating agencies will coordinate the purchasing, maintenance and deployment of equipment and training to the best advantage of an individual agency while meeting an overall goal of providing a complete response capability without burdening any single agency with the total responsibility.

SECTION 1.11 AGENCY LIABILITY

Each participating agency shall provide all necessary insurance coverage for their employees who operate under the cover of this Memorandum of Understanding. Employees of each agency shall remain the employee of that agency while operating under the cover of this agreement. Each agency shall also hold all other participating agencies harmless for acts by the employees of that agency performed while operating under the cover of this agreement.

The protections afforded through the California Master Mutual Aid Agreement are hereby referenced with the purpose of providing those same protections within this agreement with regard to liability.

SECTION 1.12 COOPERATING AGENCIES AGREEMENT

It is agreed by the participating agencies that any commitment made under this Memorandum of Understanding is made with the knowledge that such a commitment is for a period of two (2) years from the date of enactment of this agreement. Should an agency deem it necessary to withdraw from its commitments made under this MOU, said agency shall notify the other participating agencies in writing 90 days prior to the withdrawing agency's date of termination.

The department chiefs of the participating agencies will jointly review this Memorandum of Understanding very two (2) years for any modifications deemed necessary to expedite processing of emergency incidents involving Hazardous Materials. However, should modifications be warranted in the interim, changes to the Memorandum of Understanding shall be accomplished by all the department chiefs convening a sub-group to formulate the required changes and, when completed, these changes will be jointly agreed to by the chiefs and shall be integrated permanently into this agreement.

SECTION 1.13 PAYMENT TO PARTICIPATING AGENCIES

Annual payment shall be made to each participating agency for the amount specified per Technician. Additional funding may be available for Technician training as determined by the Administrators.

SECTION 1.14 SPECIFIC REQUESTS FOR EQUIPMENT

Specific requests for the purchase of equipment will be made through the Haz Mat Group Supervisor responsible for managing equipment. The requests will be submitted as part of the annual budget process.

SECTION 1.15 SPECIFIC REQUESTS FOR TRAINING

Specific requests for training funding will be made through an application process initiated by the applicant. Applications will be reviewed by the Haz Mat Group Supervisor who will forward a recommendation to the Administrators.

SECTION 1.16 REFERENCE COUNTY MOU FOR FUNDING

The agreement to provide for a Regional Hazardous Response Team in Santa Cruz is hereby referenced as an enabling document of the participating Agencies.

ARTICLE 2: TEAM OPERATIONS, TRAINING AND PROCEDURES

SECTION 2.1 MEMBER SELECTION

All members shall be selected by their respective agencies per a selection process to meet the agency's needs. All candidates should have a sincere interest in becoming a part of the Team. All should be aware of the hazards, training, and maintenance requirements prior to selection. All agencies shall select and train sufficient personnel to maintain the minimum level of personnel per the Team plan. All Team Technicians shall be requested to provide a minimum of three (3) year commitment to the Team.

SECTION 2.2 MINIMUM TRAINING STANDARDS

The following shall be the minimum level of training and proficiency for all Team members. This shall meet or exceed all State of California and 29 CFR 1910.120 standards. It shall include but not be limited to training topics, performance evolutions, in-service training, scenarios, other Team cross training, and physical standards.

SECTION 2.3 POST SELECTION ORIENTATION

After selection all members shall receive a 4-hour orientation from at least one of the Group Supervisors. This orientation shall include, but not be limited to, the following:

- ✓ Welcome to SCHMIT
- ✓ Who are the participating agencies
- ✓ Who are the members
- ✓ What are the areas covered by the Team
- ✓ What training must be completed prior to response
- ✓ When the new member is scheduled to attend the training
- ✓ What are the on-going training requirements
- ✓ How to respond per your agency and jointly with SCHMIT
- ✓ What apparatus and equipment are operated by the agencies participating in SCHMIT
- ✓ SCHMIT Standard Operating Procedures
- ✓ Review of the Santa Cruz County Area Plan

Computers, Radios, Telephone, Fax, Pagers, & other Communication Equipment	4 hours
Monitoring Equipment	4 hours
Vehicle Operations	4 hours
ICS, Business Plans, Area Plans, Cooperating Agencies, & Reference Material	4 hours

SECTION 2.4 HAZ MAT TECHNICIAN MINIMUM TRAINING

All personnel that will be operating in Level A or B protective clothing shall be trained to the Hazardous Materials Technician level. The minimum training shall include but not be limited to the following and training shall be completed prior to entry into the Team:

- ✓ Hazardous Material First Responder Operational Level
- ✓ California Drivers License (adequate class with endorsements to drive the response vehicle)

- ✓ Minimum 2 years in the fire service with participating agency
- ✓ Hazardous Materials Qualification Physical Exam
- ✓ Personal Exposure Record Reporting System
- ✓ Basic ICS
- ✓ Hazardous Materials Technician Training

SECTION 2.5 HAZ MAT SAFETY OFFICER MINIMUM TRAINING

All personnel that will be operating as the Safety Officer at a hazardous materials incident shall be trained to the minimum level appropriate for the incident as required by incident conditions, as established by standard operating procedures.

SECTION 2.6 ENGINE COMPANY MINIMUM TRAINING

All engine company personnel that will be routinely supporting team operations shall be trained to the following level. The minimum training shall include but not be limited to the following:

Haz Mat First Responder Operational (Refreshed annually) 8 hours

SECTION 2.7 CONTINUING EDUCATION TRAINING AND EXERCISES

The Hazardous Materials Group Supervisor responsible for training shall provide a training schedule that shall include the following:

- ✓ Quarterly Drills
- ✓ Support Personnel Certification Training
- ✓ Re-certification Training for Personnel
- ✓ Off Site Training Courses

In addition, the Hazardous Materials Group Supervisor responsible for training may be asked to coordinate first responder training for any of the agencies in Santa Cruz County or cooperators.

Section 2.7.1 Quarterly Drills

Quarterly training drills shall be held to keep personnel trained on the latest techniques and equipment necessary to deal with a hazardous materials incident. An agenda of the monthly training shall be provided in advance.

Administrators shall make every effort to assure, within their individual agencies' constraints, that Technician personnel shall attend all training.

Engine Company personnel should also attend quarterly drills as scheduling permits.

All personnel shall notify the training Group Supervisor or his/her designee by 0830 hours the day of the drill if they are unable to attend.

Section 2.7.2 Engine Company Personnel Training

The Hazardous Materials Group Supervisor responsible for training shall schedule Engine company training as necessary to maintain support level skills.

Section 2.7.3 Re-certification Training For Personnel

The Hazardous Materials Group Supervisor responsible for training shall schedule personnel to attend training that is necessary for personnel to maintain any and all certifications that are necessary for operations.

Section 2.7.4 Off Site Training Courses

The Hazardous Materials Group Supervisor responsible for training shall be forwarded a copy of all training provided off site that is related to operations. Personnel shall be sent to off site training to maintain or increase their value to the Team as can be arranged. All personnel attending off site training shall return and forward as much information as possible to other members of the Team in either formal or informal training.

SECTION 2.8 TRAINING/PHYSICAL EXAM RECORDS AND CERTIFICATES

The Hazardous Materials Group Supervisor responsible for training shall maintain training records on all personnel. This shall include a current copy of their resume', certificates and medical fit for duty reports. Each participating agency will be responsible to provide the mandated physical examinations for their employees which meet the specifications as outlined in 29 CFR 1910.

SECTION 2.9 INCIDENT DEBRIEFING

All incidents shall be debriefed within 7 working days. For significant events, an expanded format shall be used which shall include but not be limited to the Administrators group and other agency officials as necessary.

SECTION 2.10 ANNUAL TRAINING PLAN

A portion of the Annual Plan shall include all the planned training anticipated for the year in question. This Training Plan shall be presented to the Administrators for their approval and commitment.

SECTION 2.11 STANDARD OPERATING PROCEDURES

Standard Operating Procedures (SOPs) shall be developed for team operations. As a minimum, SOPs will be created for entry protocols, levels of protection, testing and lab protocols, cost recovery procedures, communications, and any other team operation deemed to need a standard operating procedure. SOPs shall be recommended to Program Manager, who will have operational authority for the adoption and publishing of the SOPs.

ARTICLE 3: FINANCE

SECTION 3.0 POLICY

It shall be the policy of the SCHMIT to actively pursue the reimbursement of all legally recoverable costs associated with responses by the Team to incidents. It shall also be policy to distribute recovered funds to all participating agencies based upon their involvement with each specific incident.

Santa Cruz County Environmental Health plays a crucial role in the cost recovery efforts. They will process all cost recovery claims in a consolidated manner and follow up with the Santa Cruz County District Attorney's office for cost collection if necessary.

SECTION 3.1 COMPILATION

Each participating agency shall be individually responsible to compile all agency specific costs for resources committed and/or deployed. These computations shall be based on each agency's calculated costs to respond with personnel and equipment. Each agency should develop their individual costs which are able to withstand legal scrutiny, should the need arise.

SECTION 3.2 INCIDENT COST SUMMARY REPORT

Upon compilation of each agency's expenditures, these costs will be forwarded to the Santa Cruz County Environmental Health Department for inclusion into the Incident Cost Summary Report. The Incident Cost Summary Report will delineate each agency's expenditures as separate subtotals which will be applied towards the total costs shown as the overall total of the Team's response.

SECTION 3.3 REIMBURSEMENT DISTRIBUTION

Section 3.3.1 Partial Reimbursements

In those instances where less than complete reimbursement is garnered, each agency will receive a percentage of their actual costs based on the percentage of total recovered costs. The Administrators will be advised whenever less than total reimbursement is received.

Section 3.3.2 Collection Accounting

The Santa Cruz County EHS will make available a complete recovery accounting upon request of any participating agency. They will present a Recovery Status Report a minimum of twice a year for the Administrator's use. Other status reports will be available as requested.

SECTION 3.4 TEAM MEMBER COMPENSATION

Team members will remain employees of their individual employing agency as participants on the team, including compensation, benefits and insurance. While each independent agency has the responsibility for its employees, it is recognized by the administrators that a cooperative team will be enhanced by parity in compensation for participation on the team.

ARTICLE 4: TEAM SUB-ROLES

SECTION 4.0 TEAM SUB-ROLES DEFINED

There is an ongoing need to have those personnel who are assigned to as active members to perform team functions outside of the emergency response mode to maintain and strengthen the overall Team. These sub-roles will be assigned to specific Haz Mat Group Supervisors who will garner assistance from Support personnel as appropriate.

SECTION 4.1 TRAINING AND RECORDS, MEDICALS, RESOURCE DIRECTORY

The Group Supervisor will assure:
Development of Standard Operating Procedures

1. Prepare and recommend Standard Operating Procedures for all aspects of SCHMIT operations.
2. Assure coordination and consistency of SOPs with the Santa Cruz County Area Plan.

Training and Records –

1. Manage and coordinate all training to ensure that all personnel receive the same level of training to maintain proficiency. This training will include, but not be limited to the following:
 - ✓ Federal and State mandated training
 - ✓ Monthly training
 - ✓ Recommend “state-of-the-art” Haz Mat training as it becomes available at both the Regional and State Levels
 - ✓ Coordinate a minimum of 24 hours annual training to maintain Haz Mat Specialist Certification proficiencies
2. Develop and publish the annual Training Plan and Training Syllabus.
3. Coordinate all training activities which will include, but not be limited to: Developing, implementing, scheduling, and monitoring with assigned Training Liaisons.
4. Maintain updated accurate training records for assigned personnel.

Medicals –

1. Update medical physical standards on an annual basis to ensure that State and Federal Haz Mat Physical Standards are current and accurate.
2. Coordinate Team medical physicals to ensure each Team member receives his/her physical annually.
3. Maintain a filing system that will ensure the confidentiality of each member.

Resource Directory –

1. Review and update all information in the Emergency Resource Directory annually.
2. Ensure that all information is accurate and readily available for emergency use.

SECTION 4.2 MAINTENANCE/TESTING OF EQUIPMENT AND APPARATUS

The Haz Mat Group Supervisor will assure:

Apparatus Maintenance – The coordination of all maintenance, repairs or modifications to Haz Mat apparatus.

Equipment Maintenance – Responsible for the coordination of the purchase, inventory, storage and maintenance of all Haz Mat equipment other than monitors, detectors, and mitigation equipment.

Protective Clothing, Suit Testing/Maintenance – Responsible for the coordination of the inventory, selection, repair, storage, maintenance, and testing of all protective clothing and suits.

SECTION 4.3 PLANS, COMMUNICATIONS, AND COMPUTERS

The Haz Mat Group Supervisor will assure:

Business Plans – The coordination of receiving, reviewing, filing, and incorporating all business plans in a manner to make information accurate and readily retrievable for emergency use.

Communications/Dispatch – The coordination of purchase, maintenance, storage, and operations of all communications equipment to include mobile and hand-held radios, telephones, fax machines, pagers, radio interface, and speaker units. Shall also assure that the dispatch procedures address all participating agency's needs while accessing the Team members in the most expeditious manner.

Computers/Audio-Visual – The coordination of the purchase, maintenance, and storage of all computer hardware and software to include computers, screens, printers, battery back-ups, and related programs.

Alternate Funding Sources – The coordination of Team efforts to research, apply for, and obtain program and equipment funding from sources outside traditional budget sources.

SECTION 4.4 PUBLIC INFORMATION, INVESTIGATION AND COST RECOVERY

The Haz Mat Group Supervisor will assure:

Public Information – The coordination of all public relations projects and news releases.

Investigative Unit – The coordination of the investigative efforts of the SCHMIT Investigators in investigating Haz Mat incidents.

Cost Recovery – The coordination of efforts in collecting, verifying, and submitting all forms and documents for cost recovery of expended costs.

SECTION 4.5 REFERENCE MATERIALS, MITIGATION EQUIPMENT AND MONITOR/DETECTOR EQUIPMENT

The Haz Mat Group Supervisor will assure:

Reference Materials – The coordination of the acquiring, filing, and satisfying needs for all necessary reference materials.

Mitigation Equipment – The coordination of acquiring, storage, and replacement of all mitigation equipment.

Monitor/Detection Equipment – The coordination of efforts to maintain, acquire, and replace all monitoring and/or detection equipment.

Haz Cat Materials – The coordination of efforts to train on and maintain all Haz Cat Materials.

ARTICLE 5: SIGNATURES

The signatures affixed do, hereby, authorize the necessary agencies to participate in the assembly and maintenance of a Hazardous Materials Incident Team to be known as the Santa Cruz Hazardous Materials Interagency Team under the terms of this agreement and for the protection of the citizens located throughout Santa Cruz County.
